

CSD IN THE NEWS

Message from the Chair

It is my pleasure to welcome everyone to browse through our CSD Spring 2023 Newsletter!

This newsletter provides a slight glimpse into a variety of exciting things going on in the CSD department. To get ongoing information on a continuous basis, please visit our social media posts:

@olemisscscd

Happy summer and congrats to all our grads!

WHAT HAPPENED THIS SEMESTER

NSSHLA;
About NSSHLA
and the new
President

Sensory Easter
made kids so
'hoppy' this year

Spring Labs
offered for
graduate
clinicians

Mississippi
Day

A look into the
Fees Labs

PLG Program;
About the
program and
events

NSSLHA

NSSLHA, National Student Speech Language and Hearing Association, hosts food and toy drives, providing tutoring, advocating for causes such as apraxia and autism awareness, and reaching out to Mississippi legislators in regards to accessibility for the hearing impaired, NSSLHA members show their support for the Oxford-Lafayette community each year.

Through monthly meetings and a wide array of social and volunteer events, NSSLHA offers a network for CSD students and faculty to engage in and invites both undergraduate and graduate students to join.

Caroline Pickens, BS CSD, '24

NSSLHA's new 2023-2024 President is Caroline Pickens.

Caroline is a rising senior at the University of Mississippi. She is currently a member of the Chi Omega sorority, Handband, NSSLHA, Active Minds, Big Event, Psychology Club, and is also active in the Oxford University Methodist College Ministry.

Caroline decided on Communication Sciences and Disorders as her major because of her interest in stuttering. Throughout Caroline's life, her dad stuttered and she watched as it affected his life in many different ways. She wanted to learn more about stuttering and what treatments were available.

"I love the CSD program at Ole Miss. There are many opportunities to have hands on experiences in the field and professors truly care about their students."

-Caroline Pickens

STUDENT HIGHLIGHTS

Communication Sciences and Disorders '24

LILLY DRANE

Communication Sciences and Disorders '24

ELIZABETH JOHNS

This year, CSD students Lilly Drane and Elizabeth Johns were selected to be a part of Mortar Board Honor Society.

Mortar Board is a National Honor Society that recognizes college seniors for their exemplary scholarship, leadership and service.

Spring 2023 Labs

The CSD program offers a variety of labs and clinical opportunities for graduate clinicians to have hands-on learning.

Students doing hearing tests in the Audiology Clinic.

Students in the Voice Lab watch videos of people's vocal cords.

Students conduct teletherapy sessions with clients over Zoom.

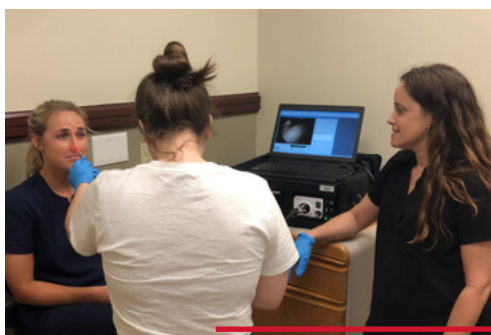

Dr. Snyder's class does research on speech impairment.

FEES Lab

The FEES (fiber-optic endoscopic evaluation of swallowing) Lab is intended to give students an introduction to normal adult swallowing and the use of Flexible Endoscopy to assess swallow structures and function.

The university offers two FEES labs. The first lab is mandatory, and includes manipulation of the endoscope and gaining comfort with its use on various objects and a medical manikin. The 2nd lab is open for any students who have completed the first lab and who would like to receive training on the use of FEES with live, human patients.

CONGRATULATIONS TAYLOR MEDALISTS!

University of Mississippi
B.S. in CSD, '23

AMY-KATE WINTER

University of Mississippi
B.S. in CSD, '23

Sensory Easter

Ole Miss NSSHLA hosted their annual Sensory Bunny in April.

This Easter event caters to children who require a more sensory-friendly environment.

The event had all sorts of fun activities and games such as sitting with the Easter Bunny, finding eggs on an Easter egg hunt, and petting a baby goat!

Children got to experience the fun of a usually high paced environment in a more chill and relaxing way.

CSD student shows a prospective student how to use a FEES machine

Mississippi Day

Mississippi Day is an annual event open to the public.

With hands-on activities, free performances, exhibits and tours, and demonstrations, Mississippi Day engages and informs visitors about the valuable contributions the university makes to the people of Mississippi and beyond.

PLG Program

The Preschool Language Group (PLG) is an early education program that provides group and individual language intervention in a language-rich environment.

This semester, children part of the HILL and PLG programs made cards for Valentine's Day, decorated masks and made bead necklaces for Mardi Gras, had a blast experiencing an sensory ice bath.
